What happens in a 30-45 minute Laughter Yoga Session?

Laughter Yoga has four key components:

- Clapping
- Breathing
- Laughter Exercise
- Child-like Playfulness

Jill, a certified Laughter Yoga professional, begins by explaining the benefits of Laughter Yoga. Then guides the group through gentle stretches, instructions for various laughter and breathing exercises, and ends with a guided relaxation.

5 Compelling Reasons to Bring Laughter Yoga to Your Workplace

Relieve Stress

Participants feel the difference in the very first session.

Find Focus

The laughter exercises increase the body's net oxygen supply for optimal performance, concentration and energy.

Spark Creativity

The playfulness taps into the right side of the brain, the seat of creativity. It nurtures fresh ideas.

Feel Healthier

"Laughter is the best medicine." Studies have shown that laughter strengthens the immune system. It's aerobic too!

Feel Connected

Our "masks" get lowered so we get to know each other in a playful way. Laughter Yoga develops collaboration, positive attitudes, and trust.

**Add these together and you have a vibrant, productive workplace
with greater job satisfaction.**
